AYDELOTTE'S

Business College,

Y. M. C. A. BUILDING,

Oakland, Cal.

The best equipped Business College on the Coast. It occupies two floors in this handsome brick and stone building. The most complete Practical Department this side of Chicago. Four courses, Commercial, Shorthand, Telegraphy and English. Oakland is the educational center of the Coast. Just far enough from San Francisco to be away from the evil surroundings of a large city. Terms: one year $102, 6 months $60. Send for prospectus.

Address the Proprietor and Manager,

J. H. AYDELOTTE,

OAKLAND, CAL.

AYDELOTTE'S

Business College,

Y. M. C. A. BUILDING,

Oakland, Cal.

A THOROUGH Commercial Training School, up to date in every particular. Fine rooms in a new building, which were arranged expressly for the school. Young men and women thoroughly fitted for positions or equipped for their own management of their own business. There are pupils in this school from California, Nevada, Oregon, Washington, Idaho, and Montana. Its graduates are scattered all over the Pacific Coast; in the Banks and Railroad offices of San Francisco, Express and Post Offices, Commission houses, and in every line of business from the largest houses to the retail shops.

The four departments, Commercial, Shorthand, Telegraphy and English, include every subject that is usually taught in the modern Business College.

Oakland offers many inducements to the student. Its equable climate, its beautiful homes and its general surroundings make it an ideal school town, and it is the educational center of the Pacific Coast. It is a thriving city of 60,000 inhabitants, and is connected by a veritable net-work of cable and electric street railways with all the suburban towns and contiguous districts, reaching by electric line as far as Haywards, ten miles away. Berkeley, the seat of the State University, and Alameda, across the Estuary, both little cities of 10,000, are within a few minutes' ride from Oakland. Cars pass the college doors.

GENERAL INFORMATION.

There are no vacations. Pupils can enter at any time. Those not sufficiently advanced for the regular course can enter the English Department for a while and coach up. Individual instruction for all. Punctuality and regular attendance insisted on. Strict discipline and a close watch of the student's progress. Board and room can be had in the city at $5.00 and upwards per week. We do not promise or guarantee positions for our graduates, but we do all we can for them in this regard. We are constantly putting students into positions. Business men frequently call at the College for help. No extra charge for any branch taught in the college. $100 for 1 year, or $60 for six months, pays for any combination of studies. Books and stationery for the Commercial course cost from $15 to $20. Further information may be had by addressing the Proprietor and Manager,

J. H. AYDELOTTE,

THE NORTH-WESTERN LINE Is the SHORTEST and BEST LINE to all Points in Minnesota, Dakota, Iowa and Nebraska. See Page 9.

THE AMERICAN

LAND AND TITLE REGSITER

It is recognized authority on real estate subjects.

It is the only real estate paper published in the United States.

It publishes information respecting land values, projected improvements, etc., in all parts of the country.

It publishes all the real estate decisions in courts of last resort.

It publishes all the real estate news from all parts of the country and is the accredited organ of the real estate fraternity.

It creates, directs and encourages interest in realty holdings and every real estate dealer should subscribe for it.

It is national in character and is uninfluenced by local pride in favor of or against any neighborhood.

It publishes the *real estate transfers and bank clearings* for all the principal cities, and comprehensive and reliable statistics showing the condition of the real estate and building business in all the principal cities of the United States and Canada. These statistical items are of the most interesting and valuable features of the paper; they show where the realty market is active, where it is dull and where it is firm. Accompanying the figures each month is a general review of the market explaining the dullness in some places and accounting for the activity in others. All this information is invaluable to live real estate men everywhere. It pays to keep posted on realty doings in the principal cities. If your local market shows good activity, in comparison with other cities, it is highly advantageous for you to be aware of the fact. You should also know when the real estate business in your city is falling off more than in other cities. The advantage this knowledge gives a dealer is obvious. In negotiating for the investment of foreign capital in particular, the agent or dealer should be thoroughly posted on the condition of the realty market in every city in the country.

The table shows the total amount of real estate transfers for each month, and the percentage of increase or decrease, as compared with the corresponding month of the preceding year.

The subscription price is only $1.50 per year, and no real estate dealer, banker, capitalist or other person interested in the comparative growth, progress or condition of any American city can succeed without it.

Sample copies sent free on application to

THEO. F. SMITH, Business Manager,

802 Chamber of Commerce,

ST. PAUL, MINN.

KING'S

Electric Battery.
